

Counterfeit and Suspect Items (C&SI) Certification

To Our Valued Customers Worldwide,

Minco is committed to ensuring the authenticity of materials used in production of our products and prevention and control of Counterfeit and Suspect Items (C&SI). Minco works proactively with all of our qualified suppliers to ensure that our products do not contain any C&SI materials.

Based on assurances related to non-use of C&SI from our suppliers, Minco hereby declares that, to the best of our knowledge, our products do not contain C&SI. Our efforts are to ensure we meet the requirements of **SAE AS5553 Counterfeit Electronic Parts; Avoidance, Detection, Mitigation, and Disposition, DOE G 414.1C Quality Assurance, and DOD Counterfeit Prevention Policy**. Our commitment extends to preventing C&SI of any kind from entering our supply chain.

At this time, Minco is not a participant in the GIDEP (Government-Industry Data Exchange Program).

Our Counterfeit and Suspect Items (C&SI) Policy for suppliers include:

1. Flow-down of the requirements for awareness of C&SI to our suppliers.
2. Request that our Suppliers report immediately if they identify/discover any C&SI used in supplied material.
3. Request that our Suppliers undertake commercially reasonable due diligence with their supply chain to assure that C&SI in supplied materials are sourced exclusively from OEM/OCM and Franchised Distributors. The use of Non-franchised distributors and brokers is discouraged.

Furthermore, we expect our Suppliers to conduct their operations in a manner that does not result in C&SI entering their supply chain at any point and from anywhere.
